

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of corporate interest placed before the interests of the citizens of this country. Airways are the public's. Sinclair broadcasting is required by law to serve the public interest. This blatant, biased, partisan electioneering that they are trying to pass off as news is very harmful to democracy. With their illegal actions, they are violating the law and their license should not be renewed. Thank you for your attention to this matter.
